

'X'-Clamp Guide Mounting

- *Optimize finished product quality*
- *Maximize productivity*
- *Exceptional reliability*

More Than Spares & Guides...

Morgan Guaranteed Parts™ and Service help achieve Morgan's Standard of Success

- Yield: 96% - 97%
- Utilization: 80% - 90%
- Rejections: Maximum of 1%
- Cobble rates: Maximum of 0.4%

Finished Product Quality

- Secure clamping of the roller entry guide with zero clearance facilitates optimum guiding
- Guide takes exactly the same setting as the portable optics viewing scope, improving product quality
- 'X'-Clamp mounting eliminates wear and alignment errors associated with conventional key mounting

Productivity

- Spring loaded clamp minimizes downtime when changing sizes
- Operator has both hands available for quick and precise adjustment of guide mounting bracket
- All fasteners have same size hexagon for quick and easy adjustment with a single wrench

Reliability

- High strength stainless steel construction resists fatigue, wear and corrosion
- Special heavy duty serrated teeth enable secure and precise guide positioning in front of the roll bite
- Precise and reliable guide location provides exceptional service life at highest rolling speeds
